

Announcing
publication of

CUMITECH 10

Laboratory Diagnosis of Upper Respiratory Tract Infections

Authors: Robert M. Bannatyne,
Carla Clausen, Laurence R. McCarthy
Coordinating Editor: Ian B. R. Duncan

Chairman, Editorial Board for ASM Cumitechs: John C. Sherris

Publication Date: January 1980

This is the latest addition to the extremely popular series, *Cumulative Techniques and Procedures in Clinical Microbiology*, known as CUMITECHS.

The nine previous **CUMITECHS** are still available.

CUMITECH 9: Collection and Processing of
Microbiological Specimens

CUMITECH 8: Detection of Microbial Antigens by
Counterimmunoelectrophoresis

CUMITECH 7: Laboratory Diagnosis of Lower Respiratory
Tract Infections

CUMITECH 6: New Developments in Antimicrobial Agent
Susceptibility Testing

CUMITECH 5: Practical Anaerobic Bacteriology

CUMITECH 4: Laboratory Diagnosis of Gonorrhea

CUMITECH 3: Practical Quality Control Procedures for
the Clinical Microbiology Laboratory

CUMITECH 2: Laboratory Diagnosis of Urinary Tract Infections

CUMITECH 1: Blood Cultures

Ordering Information

CUMITECHS are available at \$3.00 each. Payment for single copies *must* accompany order. Standing orders are welcome, and, if you would like to receive a copy of every CUMITECH as published, you will be billed annually for the number of CUMITECHS (at \$3.00 each) which you have received during the year. Published irregularly, CUMITECHS normally number two to six a year.

Quantity discounts: 11-50 copies of the same CUMITECHS @ \$2.50 each; 51-100 @ \$1.50; 101-250 @ \$1.00; 251-1,000 @ \$0.75; 1,001 and over @ \$0.50.

Attractive 3-Ring Vinyl Binder to hold your CUMITECHS: \$5.00 each.

Send all orders and

BET MEANS VALUABLE INFORMATION FOR MICROBIOLOGY EDUCATORS

MANUALS — Practical, up-to-date manuals, ideal for use in the laboratory, are available on several vital topics. See below.

AUDIOVISUALS — *Multimedia Programs in Microbiology* is a unique guide to over 725 audiovisual teaching aids, with 90 sources listed.

CERTIFICATION — Programs of importance for professional advancement are offered by the National Registry of Microbiologists (NRM), the American Board of Medical Microbiology (ABMM), and the American Board of Medical Laboratory Immunology (ABMLI).

BET ALSO OFFERS: a Directory of Degree-Granting Institutions — Individual Projection Slides — Highlights of Microbiology — Traveling Workshops — Evaluation of Continuing Education Programs (ECEP).

Ordering Information

To order, complete the attached form, and mail with your remittance and a self-addressed mailing label to: American Society for Microbiology, Attn.: Finance, 1913 I Street, NW, Washington, DC 20006. Make checks payable to the American Society for Microbiology. Prices include fourth class postage within the United States. Foreign countries and Canada, please add \$2.00 for postage to the total amount required. Payment and self-addressed mailing label MUST accompany all orders.

Requests for Information only should be directed to:

BOARD OF EDUCATION AND TRAINING, American Society for Microbiology,
1913 I Street, NW, Washington, DC 20006

Please send me:

Quantity

- _____ Identification of Saprophytic Fungi Commonly Encountered in a Clinical Environment @ \$10.00 ea.
- _____ Identification of Glucose-Nonfermenting Gram-Negative Rods @ \$6.00 each.
- _____ Photographic Survey of Glucose-Nonfermenting Gram-Negative Rods @ \$3.00 each.
- _____ Systemic Mycoses @ \$4.50 each.
- _____ Infection Control in the Hospital Environment @ \$6.00 each.
- _____ Unusual Organisms of Clinical Significance @ \$7.00 each.
- _____ 1980 Multimedia Programs in Microbiology @ \$5.50 each.
- _____ Bringing Life to Microbiology @ \$7.00 each.
- _____ 1980 ASM Slide Collection @ \$1.00 each.
- _____ 1980 Directory of Degree-Granting Institutions @ \$5.00 each.
- _____ Colleges and Universities Granting Degrees in Microbiology @ 25¢ each.
- _____ Highlights in Microbiology 1975-1976 @ \$2.75 each.
- _____ Highlights in Microbiology 1977-1978 @ \$3.75 each.

TOTAL REMITTED: \$ _____

Please send me information on the following programs:

A brand new book on a topic of clinical and research concern —

Immunobiology of *Neisseria gonorrhoeae*

Editors: Geo. F. Brooks, Emil C. Gotschlich, King K. Holmes,
William D. Sawyer, Frank E. Young

Introduction by: William S. Jordan, Jr., and Milton Puziss

In the last few years, intensified interest in the study of gonococci and gonorrhea has resulted in an explosion of knowledge and understanding of the disease. In January 1978, a group of leading scientists and clinicians met in San Francisco for three days to confer about the current status of research into *Neisseria gonorrhoeae*.

The result is a book, at times controversial, always thought-provoking, on the status quo of a sexually transmitted disease which has reached epidemic proportions.

The book covers six major areas, and includes over 70 papers. The main sections are:

- I. *Neisseria gonorrhoeae* Physiology, Genetics, and Antimicrobial Susceptibility
- II. *Neisseria gonorrhoeae* Cellular Antigens and Antigenic Analysis
- III. Pathogenicity and Immunity
- IV. Immunity and Vaccine
- V. Current Concepts and Future Strategies
- VI. Panel Discussion

This new book will have wide appeal to clinical microbiologists, public health specialists, specialists in infectious diseases, venereologists, immunologists, and practicing physicians.

Note

Nongonococcal Urethritis and Related Infections is still available, and provides useful material on venereal disease caused by the microorganisms *Chlamydia trachomatis* and *Ureaplasma urealyticum*. Edited by Derek Hobson and King K. Holmes, this book was based on an interdisciplinary workshop held in April 1976.

Ordering Information

Immunobiology of *Neisseria gonorrhoeae*:

September 1978, 422 pages, clothbound. ISBN: 0-914826-18-2. \$15.00

Nongonococcal Urethritis and Related Infections:

July 1977, 391 pages, clothbound. ISBN: 0-914826-12-3. \$14.00

(Members of ASM may purchase either of these books, for personal use only, at the special member price of \$10.00. Payment must accompany order. All overseas orders must be prepaid.)

Published and distributed by: **American Society for Microbiology**

Washington, DC 20006

On the interface between basic and applied microbiology studies —

MICROBIOLOGY

1980

Editor: David Schlessinger

This new volume in the popular annual **Microbiology** series features the proceedings of several recent symposia, and one particularly important NIH Conference on **Endogenous Mediators of the Host Response to Endotoxin**. While the volume has obvious appeal to infectious disease specialists and applied microbiologists, the material on endotoxins and viruses is of particularly wide interest to many microbiologists.

This timely and up-to-date record traces the progress being made in the following major areas of microbiology:

- ☐ Endogenous Mediators of the Host Response to Endotoxin
 - ☐ Host Response to Viral Infections
 - ☐ Interferon: Induction and Action
 - ☐ Comparative Mechanisms of Viral DNA Replication
 - ☐ Integration of the Viral Genome
 - ☐ Hybridomas
 - ☐ DNA-Surface Interactions
 - ☐ Aquatic Microbial Ecology
-

Ordering Information

January 1980. 400 pages. Clothbound. ISBN: 0-914826-23-9. \$22.00. (ASM Members may purchase this volume, for personal use only, at the special price of \$12.00. **Payment must accompany member orders.** Orders from overseas must be prepaid before shipment.)

Standing orders to the ASM **Microbiology** series are welcome. The previous volumes in this series are still available, all priced at \$12.00 prepaid for ASM Members, \$22.00 for others:

Microbiology — 1979, Microbiology — 1978
Microbiology — 1977, Microbiology — 1976
Microbiology — 1975, Microbiology — 1974

For more than 50 years, as the reproducible performance of Bacto dehydrated culture media from Difco.

For more than 50 years, Difco Laboratories has served the world with products universally recognized as being unsurpassed for quality.

The Difco concept of quality is exemplified by Bacto dehydrated culture media. These media exhibit consistent, performance-standardized reproducibility and a rigidly controlled level of biological activity, assuring accurate interpretation of test results.

The quality of every batch of Bacto dehydrated culture media is protected by the stringent quality control techniques you expect from a leader. This, plus on-going collaboration between Difco and leading international microbiologists in developing and improving culture media, are definitive factors in helping you maintain your laboratory's reputation for integrity of test results.
